NEWS

Issue 2 - September 2010

Dear Spandex Customers

Welcome to the latest edition of **Spandex News**.

In this newsletter we'd like to take this opportunity to remind you about some of the premium brands and products that we have to offer our most valued customer, YOU!

Our national sales and customer service team is always happy to answer any questions relating to you digital print and signmaking requirements, so please don't hesitate to give us a call...

...and as always, we thank you for your continued support of Spandex Asia Pacific,
Your Partner in Signmaking and Digital Print.

Did you know that Spandex ...

- ✓ is the only supplier in Australia to offer all the leading brands — Avery® and Arlon Inc. — as well as its own, exclusive ImagePerfect™ brand?
- ✓ offers minimal orders of 1m in signage materials and short rolls in digital materials?
- ✓ supports more than 8,500 sign makers, digital printers and other professionals in visual communication with personal service?
- ✓ ships more than 1,000 parcels every day and achieves a 98.5% success rate for overnight delivery?
- ✓ provides FREE comprehensive product guides, full of product information, application instructions and practical advice?
- ✓ has a range of 'PerfectGreen' environmentally friendly products?

Doing business with Spandex is easy

Spandex offers next-day and premium delivery services and same-day dispatch.

ImagePerfect™ News

ImagePerfect™ Environmentally friendly

Specifically designed for large format digital inkjet printing, the new materials are compatible with all eco-solvent and solvent inks, as well as UV-cured inks and are suitable for use in an extensive range of indoor and outdoor signage applications.

Further reduction in environmental impact

Additional environmental benefits are delivered by the products upon disposal. Unlike PVC, the eco-responsible materials do not release harmful dioxin – one of the most toxic substances known - upon incineration, which therefore allows for non-hazardous disposal and zero landfill.

“These non-PVC, environmentally-friendly ImagePerfect™ materials allow for the creation of digital output that is more environmentally-friendly than would be the case with standard vinyl options”, says Roland Keller, Executive Product Director, Spandex.

ImagePerfect™ DIGITAL

Excellent Value, perfect prints.

ImagePerfect™ DIGITAL offers you freedom of choice. Outdoor durable materials, banner products, mesh, textiles and a stunning range of over 70 specialist materials to help you meet the evolving needs of your customers - and keep you one step ahead of your competitors.

ImagePerfect™ DIGITAL, optimised for today's inkjets, with tomorrow's applications in mind.

Vinyl • Banner • Mesh • Backlit • Window Film • Textile • Canvas • Paper • Overlaminates

ImagePerfect™ Accessories

Tools for your everyday needs

ImagePerfect's proven range of specialist professional tools allow you to work faster and smarter.

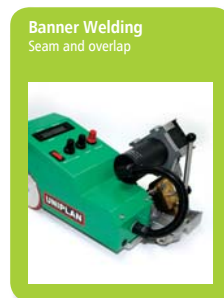

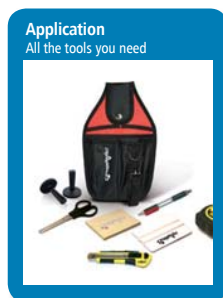

With this quality range you will save time and money and guarantee an optimum finish to your job every time.

Environmentally friendly products:

- Adhesive Remover - powerful removal of all adhesives
- Surface Cleaners - professional preparation on various surfaces
- Vinyl & Banner Cleaners - remove dust & dirt from delicate printed vinyl and banners
- Magic Apply - ideal for east wet application of self adhesive materials

Tools:

- Steam Remover - self adhesive remover with "Power Steam Control"
- Banner Welder - perfect seam overlap welding for most PVC coated banners
- Pressure Roller - applying self adhesive films and tapes
- Squeegees - for applying and removing self adhesive films

Mimaki UJF-3042

The Mimaki UJF-3042 is the most affordable UV LED curing printer in the market. This tabletop flatbed printer is compact in size, but can be used to print on any substrates or media up to 50mm in thickness.

The printer is suitable for single or short run jobs and it's ideal for printing on gift and novelty items. The UV LED offers energy savings, longer diode lifetime and a printing environment with close to no VOC's emitted.

- Direct Printing of variable data on everything
- Simultaneous white ink under and overprint
- UV LED doesn't generate excessive heat, allowing printing on heat sensitive material
- Glossy and/or layered finishing
- Environmentally friendly technology

Mimaki

Epson Stylus™ Pro GS6000

The 64 inch durable graphics printer designed to meet the specific needs of printing professionals who produce high quality display graphics.

Along with the new Epson UltraChrome™ GS solvent ink and dual-array Epson MicroPiezo print heads, the Epson Stylus Pro GS6000 delivers a wide range of advanced technologies that set new quality and performance standards in the sign and display market.

- Max print resolution of 1440 x 1440 dpi
- Variable-Sized Droplet Technology
- 8-Colour ink system
- Extremely Wide Colour Gamut
- High-Capacity, Hot Swappable Ink Cartridges
- 3 Year Warranty with included Preventative Maintenance schedule
