

This frontlit banner is a glossy, flexible and soft material, that manifests itself as an economical printing solution. IP 2109 has been specifically designed for digital printing on large-format inkjets and is suitable for printing with eco solvent and solvent inks as well as UV-cured inks.

IP 2109

IP 2109 is an economical solution for short-term applications, while offering excellent printability. This banner material can be used for indoor and short-term outdoor applications, including (but not restricted to) billboards at trade shows and events, show rooms and promotional campaigns. Laminate: ImagePerfect™ water-based liquid laminate with UV protection.
