

IP 2111 FR blockout banner is a premium coated banner material for high quality graphics, which is printable on both sides. This material has been specifically designed for digital printing on large-format inkjets and is suitable for printing with eco solvent and solvent inks as well as UV-cured inks.

IP 2111 FR

IP 2111 FR is a new generation of fire retardant flexible digital banner materials offering first class printability. This product is an extremely strong, flexible and soft top-quality banner material. It can be used for indoor and outdoor applications such as billboards at trade shows and events, construction sites, show rooms, promotional campaigns and many other applications. This material has been UV-stabilized and features an anti-fungus treatment. Laminate: ImagePerfect™ water-based liquid laminate with UV protection.
