

IP Vinyl & Banner Cleaner is an advanced, powerful cleaning product that completely and safely removes dust and dirt from any soft and semi-rigid vinyl (PVC), thereby restoring the original lustre of its surface.

IP Vinyl & Banner Cleaner

IP Vinyl & Banner Cleaner is an instant cleaning solution that utilises the strongest cleaning formula available to allow for the effective removal of built-up dirt. It affords ease of use and accuracy and, as it does not contain any harsh chemicals or phosphates and is completely solvent-free, it will not damage or discolour the surface of either the vinyl itself or of any solvent, eco-solvent or UV prints on the vinyl, thereby affording complete peace-of-mind. It is suitable for use on all types of vinyl, including outdoor signage, car-wraps, banners, tarpaulins, semi-rigid sheets, illuminated light boxes, etc. Directions: The IP Vinyl & Banner Cleaner should be sprayed onto the vinyl where it will immediately dissolve the dirt and grime on the surface. The vinyl should be wiped with a cloth and then rinsed with clean water before being allowed to dry. IP Vinyl & Banner Cleaner can be used in its concentrated form or as a solution diluted with water. It can also be used in any high-pressure washing system, which makes it a particularly attractive option for use when cleaning car wraps and tarpaulins.

Specifications

MATERIAL CONTENT	
ENVIRONMENT	No dangerous components
TOXICITY	Completely non toxic
STORAGE	Keep container tightly sealed and keep away from heat / Best below + 22°C
TRANSPORT	No classification; no restrictions
SHELF LIFE	1 year, 20°C / 50% humidity
