

Magic Apply makes wet application fast and easy whether applying vinyl letters and logos, large surface coverage, vehicle graphics or digital prints.

IP Magic Apply

Magic Apply application fluid guarantees optimum working conditions on all surfaces especially those which tend to be more difficult such as glass, mirrors and flexible substrates like PVC banners. Application Guidelines: Thoroughly clean the surface using ImagePerfect™, 3M or Avery surface cleaner. Do not use alcohol. Spray IP Magic Apply on the surface in a thin layer, then apply the vinyl with application tape in the usual manner. Remove all excess fluid using a squeegee on the vinyl. After application dry all areas using ImagePerfect™ towels. Do not apply at temperatures below +10°C without the necessary thermal post-processing. Attention: We do not recommend using this product when working on corrugated or riveted surfaces. Working with heat expands the volume of the liquid and can cause irreparable air bubbles.

Specifications

MATERIAL CONTENT	Non-ionic and anionic tensides, demineralised water
ENVIRONMENT	Almost 100% bio-degradable
TOXICITY	Non toxic
STORAGE	Best below +22°C
TRANSPORT	No classification, no restrictions
SHELF LIFE	1 year, 20°C / 50% humidity
