

IP Surface Cleaner Pro is a professional and very powerful product for preparing various surfaces that need to be prepared for application of self adhesive materials.

## IP Surface Cleaner Pro

IP Surface Cleaner Pro guarantees a professional preparation of various surfaces. Always test the product on specific surfaces such as certain plastic materials. Spray the surface with surface cleaner and remove the liquid using a paper tissue (e.g. Tork tissues). Do not use the tissue twice as this will influence the end result in a negative way and do not wait too long before wiping the surface. Work fast and do not allow the surface cleaner to dry up. IP Surface Cleaner Pro does not contain hazardous materials and is environmental friendly. The surface cleaner can also be used to clean whiteboard film and to remove small adhesive remains.

Specifications	
ENVIRONMENT	Almost 100% bio-degradable
TOXICITY	Not toxic / Irritant for skin and eyes
STORAGE	Keep containers tightly sealed, store in cool, dry conditions / Best below + 22°C
TRANSPORT	Not classified as Dangerous Goods
SHELF LIFE	1 year, 20°C / 50% humidity
