

# Carbon Foil

Premium quality carbon foil

## Carbon C-90

Premium quality vinyl film featuring a trendy carbon fiber look. It is designed for use on cars, motorbikes, buses, signs and lettering. This material is ideal for achieving a sporty look in car interiors and for plotting and screen printing.

## Carbon C-90

Carbon CAST vinyl is a premium quality cast vinyl film specifically designed for use on 3D substrates.

Application temperature: +5°C or higher. In order to offer a higher level of UV and anti-graffiti protection this material may also be overlaminated with PVF films (e.g., article # E1204) to enhance scratch resistance (not suitable for 3D applications).

### Specifications

Description	cast carbon foil
Colour	carbon
Thickness face film	65 $\mu$
Weight	N/A
Adhesive	acrylate, permanent
Release paper	paper 135g/m <sup>2</sup>
Temperature range	-54°C to +107°C
Durability	up to 7 years
Flame retardancy	self-extinguishing
Shelf life	2 years, 20°C / 50% humidity
