

Fisso Hook

Fisso Lasso

A superior range of panel display fixings

These fixings have been chosen to offer a variety of suspension solutions for panel graphics. The panels can be suspended from cables or chains with hooks, loops or screw fixings giving a number of different design solutions which can transform a simple panel graphic.

A variety of different looks

- Vertical or frontal mounting of the panels
- Suitable for single panels and sandwich systems
- For use with cable, chain or nylon thread
- Multiple panel combinations possible
- **Mounting:** screw, hook and cable loop systems with frontal and vertical mounting
- **Material:** brass - chrome and silver plated

Fisso Panel fixings ideal for

- Rigid panel graphic displays
- Retail advertising
- Information signage
- Directional signage
- Frame mounting

Spandex Sign and Display Systems are the preferred choice of architects, designers and signmakers worldwide
