

Monsterframe

Monsterframe is a user-friendly mounting system for BIG advertising banners both in and outdoors.

A smart design and high-grade quality components is what Monsterframe stands for. All parts are robust, durable, top-quality and reusable. Perfect for digitally printed PVC banner and mesh materials on both small and large scale advertising.

Easy mounting

For mounting you'll find aluminium supports, corner connectors, banner buttons and eyelets, elastic cords as well as expanders. Monsterframe is everything you need for mounting really big prints.

To attach the banner simply insert the buttons into the profile's notches. Buttons can be replaced or moved at anytime – even after mounting the frame to the wall. The banner can be hung and replaced without the need for any special tools or taking down of the Monsterframe.

The profiles for this modular system are available in a silver anodised finish with a diameter of 50mm and standard lengths of 6.5m which can be simply cut to your own specifications.

Monsterframe is ideal for

- Large building advertising
- Promotional displays - indoor and outdoor
- Event advertising

Recommended ImagePerfect Media

- All ImagePerfect banners IP2109 - IP2120
- All ImagePerfect mesh IP2204 - IP2212
